

Math-2205 Class Test 01 Section E

1. Frequency distribution of the CGPA of some students of UIU is given below.

CGPA	0 – 1	1 – 2	2 – 3	3 – 4
Number of students	7	20	23	b
Cumulative sum of the students	a	27	50	60

- (i). Find the values of a and b . [2]
- (ii). Find the number of the students attained more than CGPA 2. [1]
- (iii). Estimate the Harmonic Mean of the CGPA. [2]
- (iv). Find the percentage of the students in the Median class. [2]
- (v). Estimate the Standard Deviation. [3]

Math-2205 Class Test 01 Section G

1. Frequency distribution of the CGPA of some students of UIU is given below.

CGPA	0 – 1	1 – 2	2 – 3	3 – 4
Number of students	7	20	23	10

- (i). Find the Range and Sample size of the given data. [2]
- (ii). Find the percentage of the students attained the CGPA within 1 – 3. [2]
- (iii). Estimate the Mode of the CGPA. [2.5]
- (iv). Find the Mean Deviation from the Mode. [2.5]
- (v). Find the Co-efficient of Mean Deviation from the Mode. [1]

Math-2205 Class Test 01 Section O

1. A survey was conducted among 50 students to determine how many hours they spend studying per week. The results were organized into the following frequency table:

Hours Studied per Week	Number of Students
5 - 10	9
10 - 15	16
15 - 20	a
20 - 25	11

- (i). Find the unknown value a . [1]
- (ii). Estimate the Geometric Mean of the study time. [2.5]
- (iii). Estimate the Median and percentage of the student in the Median class. [4]
- (iv). Find the Mean Deviation from the Median. [2.5]

Math-2205 Class Test 01 Section P

1. A survey was conducted among 50 students to determine how many hours they spend studying per week. The results were organized into the following frequency table:

Hours Studied per Week	Number of Students
5 - 10	9
10 - 15	16
15 - 20	14
20 - 25	11

- (i). Find D_3 . [2.5]
- (ii). Estimate the Harmonic Mean of the study time. [2]
- (iii). Find the Mode of the study time. [2.5]
- (iv). Estimate the Standard Deviation of the study time. [3]
